

Dear friends,

We have unusually hot days of June now. It seems that nature is hurrying – everything is flowering and very fast. Everything is growing in the garden and on the field very well, only we are very busy with weeding and watering.

The Lawns around our houses are mowed and looking nice thanks to Vova. And Katrin and Urmas have made Männi house garden so nice that we cannot recognise it.

People from Comenius house are now already two months enjoying life in their new spacious and beautiful house. We are thankful to Lothar for his architectural work and to Tiit and Aino for their project work. And big thanks to all builders for the beautiful house!

We would also give our thanks to Odbjörn from Norway for the furniture, machines and clothes.

Thanks to Geoffrey and

Johannes and their helpers for the woodshed-garage.

Now Comenius house waits for renovation and also Helle house and Männi house.

The biggest project of this year will be a sewage cleaning system for the village. We hope to get financial help for it from state fund.

As our farmer Geoffrey and France Helene with children left us in Spring we very much wait for co-workers with families. There are possibilities to work on the farm, in the milk kitchen and in the households. Or one can just come to help in Summer.

Nice midsummer to everybody

Tiit

Birthday of Ants.

I had very nice birthday party. I had lots of guests. My three sisters and two brothers came to visit me. Monika and Agu with their two small children were also here. They came with two cars. They brought a big knot-shaped currant bread and cake and presents. We ate salads and cake. Afterwards we walked around and looked at the animals

Ants

Pazival

Tiia started to read a book about Parzival on the Sunday after Whitsun. Katrin brought this book from Scotland. We heard lots of interesting stories about Parzival and other knights. They were fighting all the time and looking for Grail, and there were some queens too. One of these knights had to save virgins from a bewitched castle and afterwards he became the king of the state. We will have four stories more and then the book is read. These stories are very interesting to hear.

Kersti K

Moving

We started to move into Tamme house on Sunday. We put our things into the bus and the new Volvo. Katrin was so frightened when she saw the amount of our things. Our whole room was full of boxes. Many people come to help us. We moved over two days and Tiia prepared meals for us in Vikerkaare house on these days. Katarina was the biggest mover because she had most things.

We cleaned kitchen cupboards before we put things in. Rosie and our old cat Tiugu were the last who moved into the new house. In the beginning I put my clothes in the library room because I did not have a wardrobe. At last I got it. Now I like very much to live in the new house.

Kersti Kislar

My wardrobes were brought at Christmas time. We had Christmas play rehearsals then. I cleaned my wardrobes first. I moved my first things into Tamme house in January. Afterwards we had guests in my room in Tamme house, and when they left I could continue to move in. So I did it bit by bit until April. All Comenius household moving to Tamme started in April. We did it by bus and car. I used a wheel barrow for it. We moved everything from the kitchen and the living room and from our bedrooms. Now Comenius house is completely empty.

It is good to live in the new house because there are many bathrooms and everybody has place and time to wash himself on Saturday.

Jevgeni

The joy's and sorrows of moving house

Some people started with moving already long before the new house was ready. Clothes and beloved belongings were put into boxes in order to be the first when the longed for moment would have come. Never mind that at least twice everything had to be put back into the cupboards as winter clothes were missing...

Others went every evening to get a feeling of their new room and to take along some belongings already, with the result that things desperately needed were always just in the other room.

Once the agreed date for moving had finally come, two were already in their new rooms whilst the others just started to pack. With our seniors it went rather fast, once I managed to have a look, how Margus was doing, he sat already behind his table, drawing pictures, as usual, as if nothing would have happened. Ants did not have time to get installed, he had to start heating. But Piret helped to fill his clothes cupboard. The one, who missed all the cars, was late for suitcase and for transports and finally carried her belongings from one house to the other in the dark at night by wheelbarrow and rucksack was... have a guess...

A big thank you to Tiia, who made the lunches for us these days in Vikerkaare house. We would not have been able to find plates or pots or pans, as they were on the move. It was a joy to put everything into the new kitchen cupboards, to finally have a lot of space for everything, also for all the humanitarian aid had come from Norway already in autumn. How big was the surprise, that when all the new kitchen cupboards had been filled there was still packed kitchen boxes...

Looking back it is amazing, how much we managed to fit into this small Comenius kitchen that big Tamme house kitchen was filled so soon.

And when I thought, now we have moved everything, Jevgeni managed to come with more and more things, we had almost forgotten that they exist.

Thank you Katrin, Pierre and Johannes for the car-transport and for moving the furniture, and thank you to everybody else, who helped! I believe, the whole village was actually involved moving Comenius house community to Tamme house. Even Jaak Espe had come, to install the new kitchen helped by Kristiinas parents. Thank you very much!

From that third weekend in April onwards you might have problems to get hold of us by phone. Tamme house got a new phone number only some day in May and it was really great not to hear the ringing of the phone for two weeks in between. But now you can phone us under the number 4897535 unless we sit outside and do not hear the phone. Please consider also that it takes me half a minute to go from my room to the telephone-table so please be patient and let the phone ring at least 8 times.

Katarina

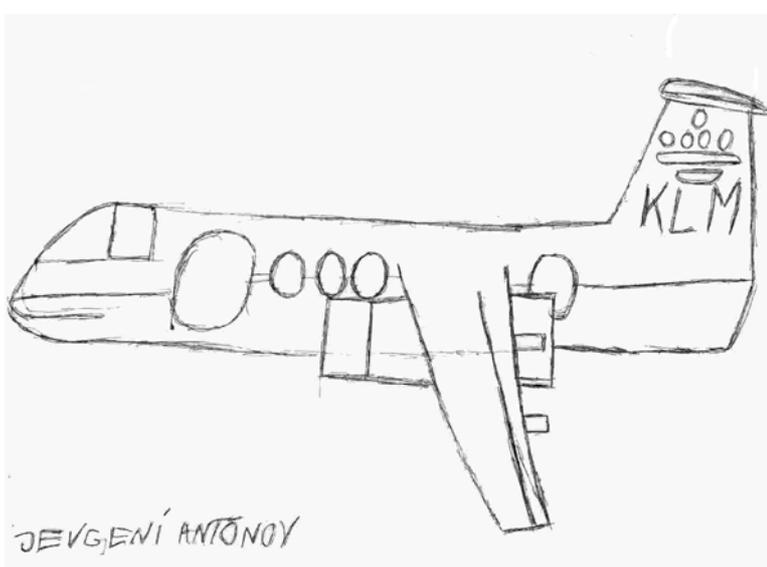

Concert in Tondi school.

We went with our orchestra and choir to give concert at Tondi school on 7th May. We drove with the car and the bus. We played Spring Festival songs and Papageno from Mozart, and then Urve Purga violin pupils played. They played also Papageno and Madismäe Kalle and other songs. Malle and Merike played little bit later. Kaarel sang as well. Afterwards we had coffee. There were also apples and juice and biscuits. It was a nice concert, and they asked us to come again. We also got a big bag of sweets. Then we drove back to Pahkla.

Kersti K.

Jevgenis journey to Scotland

I woke up at 4 o'clock in the morning and opened my curtains. When I walked downstairs I saw Margus' sleepy eyes. I had my breakfast. Then I waited at Helle house for the car. Then we drove by Männi house where we pick up Katrin and Guido and then Merle. Then Pierre took us to the airport. We gave away our luggage. Then they controlled us and our passports. Then we went on a bus which

took us to the aeroplane. It was a KLM flight. Then we flew to the Netherlands. We saw all of Europe from above. Then we landed. They took a bottle of shampoo from Guido and I had to lend him shampoo afterwards. Then we went on another aeroplane. It was also KLM. I did not sleep in the aeroplane. They gave us coffee and a small snack. Then we arrived in Scotland. I sat by the window. The taxi was already waiting for us at

the airport and we drove to New Lanark. There we walked first. The others walked too. In the evening we slept. We were very tired.

The next day the others went to meetings and we went too. There was drawing and painting. David spoke at the beginning and I had a rest. I was in another group. There was also Gabriele. She drew first and then I knew what to do. In the evening we had supper in the restaurant. In the morning we had breakfast. It was good. When we started to leave the taxi was already waiting for us. We had to go through controls again in the airport. On the aeroplane they gave us a little food. We met Latvians again in Amsterdam and said again good bye to them. Then we went to the aeroplane which took us to Tallinn. I saw land again in the end. We arrived very late. Johannes came to meet us. It was an interesting trip.

Jevgeni

Old town days in Tallinn.

We went to Tallinn on Sunday morning. We were fifteen people. We parked our cars at the railway station. Katrin Kirsipuu came to meet us. Then we went to the Old Town. We went to the market where they sell handicraft. I bought honey and a skirt for myself. Then we walked around and looked at the nice things. We also listened to some concerts. We went to visit Katrin. She gave us salad and rhubarb cake. Then we walked back to the Old Town. There was a concert at the Town Hall square. We listened to it and danced. We started to drive back at seven a clock.

Piret and Veronika

Jorney to Scotland

We woke up early morning on 30th April to prepare for our trip to Scotland. The morning was cold and even snow was covering the land. Pierre took us to the airport. In the airport we had to take off our coats and shoes and they searched us properly, but they did not find anything. We flew to Amsterdam with the first plane. There we met Latvians. They were five people. Then we flew to Glasgow.

There were two taxis waiting for us. We started to feel bad when we had been driving a while. There was no fresh air in the taxi. We asked to open windows to have fresh air, and to feel better. We drove for approximately one hour. We arrived at the hotel when the doors were still closed, and we had to wait. Afterwards we registered and we went to see the town. We went to sleep very early this night because we were tired.

The conference started the next morning. There were over 200 people from all over the world, even from America. We sat in a big hall and listened how to change life in community and what to do for it. There was a very funny puppet-show "Man who planted trees" in the evening. We laughed a lot.

There was also painting, drawing, singing and clay modelling. We also got to know about the history of New Lanark. It was very interesting. We where in a museum and saw how life was 200 years ago. This town was started by Robert Owen, and the houses where the same only a bit renovated. On the last day we went for a walk in the Scottish mountains. We saw cows and sheep on green hills. All the apple trees and lilacs and other flowers where flowering. These were very nice spring days in Scotland.

Guido

Garden works

First Kalju made furrows with the tractor in our garden. They planted potatoes. Vova and Guido worked on the planter. Then they sowed carrots, dill, beans, parsnip, turnip, onions and leeks. Later we planted cabbage and Kalju sowed red beet. Merle, Veronika and Katrin planted tomatoes in the greenhouse. Kalju prepared covered beds for cucumbers. We have also planted pumpkins.

Then Johannes noticed that some insects were eating our cabbage leaves. And then we put some wood ashes on the cabbage plants. And then some other insects started to like our beans and also onions... And Kalju found the first Colorado beetle in the same morning. So we will start to pick them next week. Kalju sowed beetroot too. And before that we had collected lots of stones from the furrows.

We have also picked herbs for tea and weeded flowerbeds because weeds grow so fast. But the weather has been very nice and warm.

Kersti K and Katrin

Television tower.

On Ascension Day we made a trip. We went to the television tower. We went up with the lift and tried to see Finland. I did not see it. I saw only sea. Then we went down. There were lots of tourists waiting for the lift there. We went to the Botanic Garden. There were so many plants. We saw also a white dove and a parrot. We walked around and then had a picnic. It was a nice day and fine outing.

Kersti K

Journey to Latvia.

Evelin, Johannes, Pierre, Piret and I went to Rožkalni on Sunday. One fellow showed us the houses and the barn. There were cows, calves, turkeys, ducks and hens. The next day we help to pick stones. Then was tea break and afterwards we picked more stones. We put stones at the borders of the flowerbeds. We built a yard. We helped to weed strawberry beds on Tuesday, and we planted cabbage. Then we went to swim in the neighbours' pond.

In the evening we did eurhythmy with Inga and looked at eurhythmy performance. On Wednesday we went to Riga by train. We walked there. We sat by the river and walked on bridges. There is a big and beautiful old town in Riga. We were also in the market. We nearly missed the train. Then we went to see one nice red castle. Then we arrived back at Rožkalni. We said bye to everybody and started to drive back home.

Urmas and Piret

A story about hens and other animals.

Our twenty five hens and a cock were very happy when they got their new garden, and they lived there happily. They laid nearly twenty eggs every day. We could bake cakes and fry eggs. They liked it also.

But on one Sunday morning we could not see a cock anymore. We started to search for him with Johannes and Evelin and found feathers under one bush. Six hens were also missing. Foxes had dug a hole under the gate and taken the hens away. It was very sad, but what to do.

Then Silvi, Johannes, Urmas and Linne drove to Kohila to buy a new cock. But they were all sold. But they bought fifteen new chickens who will start to lay eggs in the Autumn. But the cock we still do not have.

New chickens live in a small Summer house. And soon a new fence will be built for them too. Their neighbours are two pigs and five piglets. I feed them all and look after them.

The cows are on the pasture and eat grass. In the morning and evening we run them home to be milked and then we run them back to pasture. Only two small calves are in the barn and get milk, and we cut grass for them. Five bulls are also

on another pasture. Now Guido and Heino take the cow muck out of the barn. Vova and Urmas are helping them when needed. Sometimes Jevgeni and Merike are helping in the cowshed. Marek makes flour.

The grass is growing very fast now and we have to mow and scythe grass often.

White roses which we got from Tapola are now flowering very beautifully. The flowerbeds by the barn are nice and soon will be weeded.

Nature in very beautiful now

Malle
